

Guideline for Depositing Students' Fees of Summer 2020

Academic activities like Classes, Examinations, Course advising and deposit of students' fees of East West University is being conducted through online.

Students who do not have any '**advance/arrear/scholarship/financial aid/regular waiver**', they will have to deposit their semester fees using the '**Advising Slip/Deposit Slip**' in the designated Banks. Even if they have any course add/drop, they can deposit the same using the revised '**Advising Slip/Deposit Slip**'.

Students are requested not to ask the bank for any Advising Slip or Deposit slip. Concerned students must have collected it after advising of Summer 2020. If anyone doesn't have it, he/she may print it from the EWU Portal (<http://portal.ewubd.edu>) using login ID.

Those who have '**advance/arrear/scholarship/financial aid/regular waiver**', they will have to use '**Manual Deposit Slip**' (<https://www.ewubd.edu/storage/app/uploads/public/5ed/fac/c5b/5edfac5b09a3454703508.pdf>) to deposit their fees. In that case they will have to recalculate their net amount of fees. In order to recalculate their net amount they will have to adjust their '**advance/arrear/scholarship/financial aid/regular waiver**' from the **total amount of tuition fees** first and after adjusting the '**advance/arrear/scholarship/financial aid/regular waiver**' they will have to adjust **special waiver (20%)** and to be added **other fees**.

For Example:

Tuition Fee	Tk. 44100.00
Less: scholarship/financial aid/regular waiver (for example)	<u>Tk. 15000.00</u>
Total after adjustment of scholarship/financial aid/waiver	<u>Tk. 29100.00</u>
Less: Special Waiver (20%)	<u>Tk. 5820.00</u>
Net Tuition Fee	<u>Tk. 23280.00</u>
Add: Laboratory Fee	Tk. 1000.00
Add: Students Activity Fee	Tk. 510.00
Add: Library Fee (For graduate Programs) only	<u>Tk. 500.00</u>
Net Amount to be deposited	<u><u>Tk. 25290.00</u></u>

Students of EWU can deposit their fees to any branch of the following banks in the country:

- i. Bank Asia Limited
